- 10 References

Introduction

- Space Kitchen Architects and Interiors is the best home designers and architects in Kerala with a record of more than 770 projects implemented successfully in South India.
- They are focusing on kitchen cupboard, bedroom and bathroom interior works etc.
- The developing application is a construction management and billing software.

Existing System

- Their existing system is a manual one.
- The main drawback of the existing one is the error rate .
- The system does not support automatic estimated cost calculation.
- The work have to be noted down in some register and also taking care of that document.
- Time wastage.

Proposed Method

Proposed method includes :

- Provision for entering the details of new project.
- Based on the requirements of client we can calculate the estimated cost.
- We can convert a new project to quotation after the approval of client so the particular project entry is deleted from the project master table.
- We can purchase the products for specific project.
- Masters maintain the details of state,supplier,project and work master.
- Provision provided for treating different queries/request from same users as different project.
- This application manages the accounting section.

1 Transactions:

- This module deals with quotation preparation and project wise purchase.
- Quotation is prepared and estimated cost is calculated.
- Project wise purchase keeps the expense and products used for a particular project.

2 Masters:

- Masters modules mainly deals with maintain master table.
- There is a provision for adding project details and that is store in project masters.
- Supplier master keeps the record of supplier details.
- State master maintain the details of states.
- Work master contain the works that doing in the company.
- Branch master stores the branch information.

3.Account Masters

- Financial statements are very important in business.
- Ledger group , ledger and bank are the sub tasks in this module.

Hardware and Software Requirements

Software Requirements

- Operating System : Windows XP or higher .
- Front-End : Java
- Back-End Tool : MySQL

Hardware Requirements

- Processor : Intel Pentium IV and above
- RAM : 256 MB
- Hard Disk : 40 GB or higher
- Display : 14.1 Colour Monitor(LCD,CRT or LED)

The screenshot shows a login page for Space Kitchens. At the top is the logo, which consists of a stylized 'S' made of yellow and red geometric shapes followed by the text 'SPACE KITCHENS' in red and black. Below the logo is a text input field containing 'spacekitchen'. Underneath that is a password input field with five dots and a cursor. A 'Sign in' button is centered below the password field. A horizontal line separates the login section from the footer. The footer contains the text 'Powerd By' and 'Navainfotech Pvt Ltd.'.

The screenshot shows the Bit Bucket web interface for the repository 'Spacekitchen'. The left sidebar contains navigation links: Source, Commits (selected), Branches, Pull requests, Pipelines, Downloads, Boards, and Settings. The main content area shows the path 'MCAPJT_Anjusnair / Spacekitchen / Spacekitchen' and the 'Commits' section. A dropdown menu shows 'All branches'. A search bar is labeled 'Find commits'. A table lists three commits by Anju S Nair, with a vertical green line on the left indicating the commit history. The table columns are Author, Commit, Message, Date, and Builds.

Author	Commit	Message	Date	Builds
Anju S Nair	56d07f0	Third commit	11 minutes ago	
Anju S Nair	f0dffa6	Third Commit	14 hours ago	
Anju S Nair	5e056b0	first commit	2019-03-11	

Figure: Bit Bucket

Conclusion

- This project mainly aims at providing an efficient web application system for Space Kitchen company.
- This system could overcome almost all the drawbacks faced by the existing system by using advanced software features.
- Transaction and Account Masters module focuses on effectively managing the accounting and reports of the transactions.
